

## Get Active Questionnaire

CANADIAN SOCIETY FOR EXERCISE PHYSIOLOGY – PHYSICAL ACTIVITY TRAINING FOR HEALTH (CSEP-PATH®)

Physical activity improves your physical and mental health. Even small amounts of physical activity are good, and more is better.

I am completing this questionnaire for myself.

For almost everyone, the benefits of physical activity far outweigh any risks. For some individuals, specific advice from a Qualified Exercise Professional (QEP – has post-secondary education in exercise sciences and an advanced certification in the area – see csep.ca/certifications) or health care provider is advisable. This questionnaire is intended for all ages – to help move you along the path to becoming more physically active.

I am completing this questionnaire for my child/dependent as parent/guardian.

		PREPARE TO BECOME MORE ACTIVE
YES :	NO :	The following questions will help to ensure that you have a safe physical activity experience. Please answer <b>YES</b> or <b>NO</b> to each question <u>before</u> you become more physically active. If you are unsure about any question, answer <b>YES</b> .
•	Y	1 Have you experienced <u>ANY</u> of the following (A to F) within the past six months?
0	0	A diagnosis of/treatment for heart disease or stroke, or pain/discomfort/pressure in your chest during activities of daily living or during physical activity?
0	0	<b>B</b> A diagnosis of/treatment for high blood pressure (BP), or a resting BP of 160/90 mmHg or higher?
0	0	C Dizziness or lightheadedness during physical activity?
0	0	D Shortness of breath at rest?
0	0	E Loss of consciousness/fainting for any reason?
0	0	F Concussion?
•	0	2 Do you currently have pain or swelling in any part of your body (such as from an injury, acute flare-up of arthritis, or back pain) that affects your ability to be physically active?
0	0	3 Has a health care provider told you that you should avoid or modify certain types of physical activity?
0	0	4 Do you have any other medical or physical condition (such as diabetes, cancer, osteoporosis,

asthma, spinal cord injury) that may affect your ability to be physically active?

YES to any question: go to Reference Document – ADVICE ON WHAT TO DO IF YOU HAVE A YES RESPONSE ... >>

NO to all questions: go to Page 2 – ASSESS YOUR CURRENT PHYSICAL ACTIVITY .....

## CSEP SCPE Get Active Questionnaire

Answer the following questions to assess how active you are now.						
During a typical week, on how many days do you do moderate- to vigorous-intensity aerobic physical activity (such as brisk walking, cycling or jogging)?	al		DAYS/ WEEK			
On days that you do at least moderate-intensity aerobic physical activity (e.g., brisk walking), for how many minutes do you do this activity?			MINUTES/ DAY			
For adults, please multiply your average number of days/week by the average number of minutes	s/day:		MINUTES/ WEEK			
Canadian Physical Activity Guidelines recommend that adults accumulate at least 150 minutes of moder physical activity per week. For children and youth, at least 60 minutes daily is recommended. Strengther least two times per week for adults, and three times per week for children and youth, is also recommend	ning mu	uscles a	nd bones at			
GENERAL ADVICE FOR BECOMING MORE ACTIVE						
Increase your physical activity gradually so that you have a positive experience. Build physical activinto your day (e.g., take a walk with a friend, ride your bike to school or work) and reduce your sede (e.g., prolonged sitting).						
If you want to do <b>vigorous-intensity physical activity</b> (i.e., physical activity at an intensity that makes it hard to carry on a conversation), and you do not meet minimum physical activity recommendations noted above, consult a Qualified Exercise Professional (QEP) beforehand. This can help ensure that your physical activity is safe and suitable for your circumstances.						
Physical activity is also an important part of a healthy pregnancy.						
,,						
Delay becoming more active if you are not feeling well because of a temporary illness.						
	I: Qualified ne more sically ad	physical	ly active.
